

# Fund Charges Summary

---

## Monument International Portfolio Bond

The Monument International Portfolio Bond is provided by Monument Life Insurance dac, a member of the Monument Re Group.

You can choose from a range of mutual funds. For mutual funds, details of the individual fund risks and objectives are available in the relevant prospectus available from your adviser. Fund fact sheets are available from your adviser. These are updated periodically, and designed to help you understand how the fund is invested and performing.

- You will need to complete a fund declaration if you want to invest in certain funds. These are funds that are classed as 'Experienced Investor Funds', 'Professional Investor Funds', 'Qualified Funds', or 'Specialist Funds' under the regulations that govern their operation. By signing the declaration you will be confirming that you meet the relevant terms and conditions set by the fund's regulations. We cannot accept instructions to buy these funds without the declaration.
  - The fund manager initial charge is taken by the fund manager. This is taken from your investment after any initial charges that we may apply.
  - The total yearly management charge is made by the fund manager for the management and administration of your investment.
  - Where possible we have arranged a discount on the fund manager's standard charge shown (the yearly management charge). The rebate (the yearly management charge rebate) is calculated quarterly based on weekly valuations during the quarter and is credited to your transaction account in the following quarter. The rebate will be shown on your quarterly statements. The rebates are not guaranteed and are subject to change. For example, this may happen where the fund manager ceases or changes the level of rebate they provide to us.
- The total yearly expenses include the fund manager's yearly management charge and the expenses charged to the fund to cover items such as registrar and audit fees.

The total yearly management charge and total yearly expense figures contained in this document are obtained from Financial Express and give an indication of the underlying fund charges at the time the data was sourced. Financial Express refresh their data regularly. Whilst reasonable care has been taken in the compilation of the data, it is not warranted to be accurate or complete and has been drawn by Financial Express from sources which are also not warranted to be accurate and complete.

\*If data is not available for a fund then a '-' will be shown in the table below.

Fund	ISIN	Fund declaration required	Currency	Income(Inc) or Accumulation (Acc)	Fund manager initial charge %	Total yearly management charge %	Yearly management charge rebate %	Total yearly management charge and fund expenses %
